

# Special Services Provided by

# Library, Counseling and Audio Visual

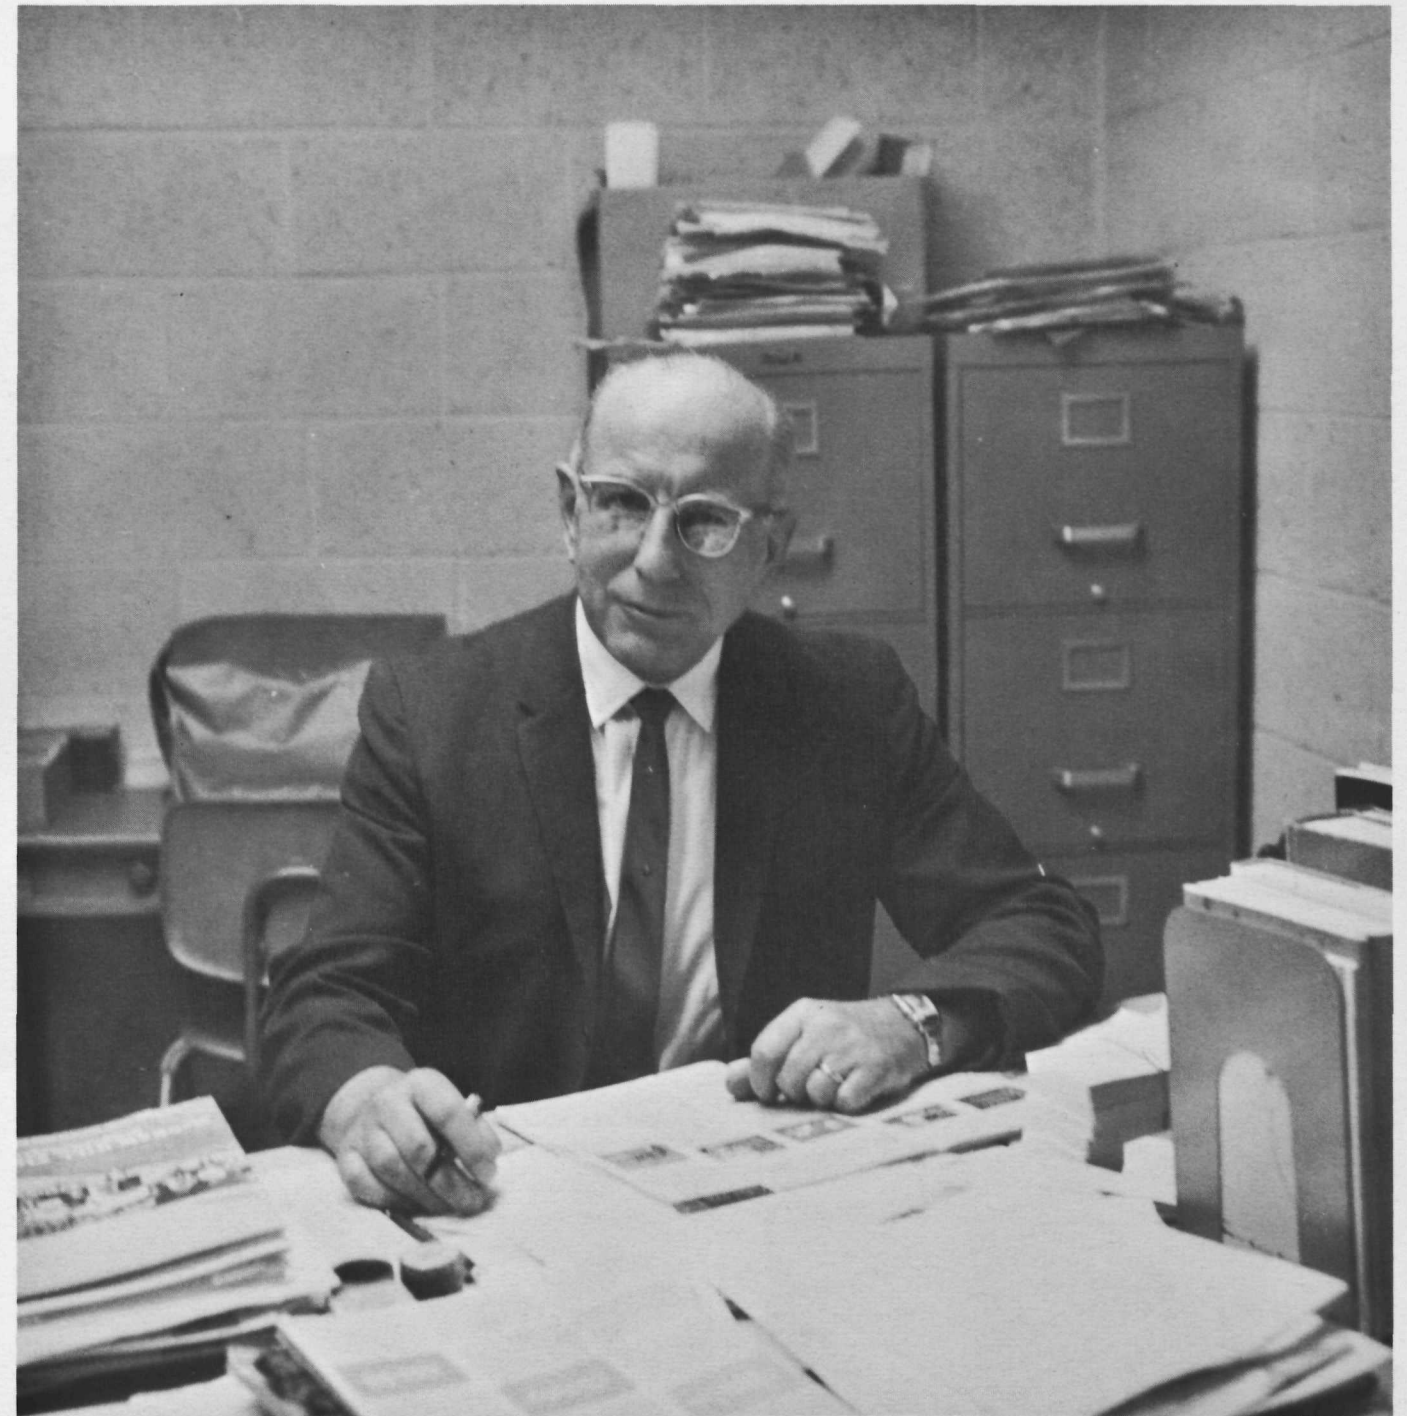

Our librarian, Mrs. Evett, is always ready to help locate materials and instruct in use of library resources.

M.P.H.S. is fortunate in having a helpful non-teaching staff in its counselors, librarians and audio visual department. The counselors aid students in job-seeking, college placement, testing programs and advising students in general. The library affords students a quiet place to study or to do research. The movies and slides that the audio-visual department provides give the students a change from the usual classroom lecture.

Mrs. Geneva Wisneski counsels students.

Mrs. Jones and Mr. McGee are our vocational counselors.

## Mr. Koch Looks Forward to Retirement

After many years of dedicated service to the Mt. Pleasant School system Mr. Koch is retiring. He has been indispensable to teachers in all departments with his knowledge and handling of audio visual equipment.

Thank you, Mr. Koch, for being a wonderful educator and friend.
